DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 7 Jan 2005 have been fully considered but they are not persuasive. The rejection of claims 21, 23-26 under 35 USC§112 is maintained. The rejection under 35 USC§101 has been withdrawn, however the claims will be rejected under judicially created doctrine of obviousness-type double patenting. Claims 7-20 are allowed.

Claim Rejections - 35 USC § 112

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 21, 23-26 rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for cancer cell proliferation, does not reasonably provide enablement for all cell proliferation. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims.

Applicants argue that the specification teaches anti-cell proliferation via the inhibition of protein kinase C activity and is not linked specifically to cancer cell proliferation. The antioxidant of the instant invention inhibits protein kinase C activity

Art Unit: 1621

therefore instant invention is not solely limited to cancer cell proliferation and cites example 14 to substantiate this argument.

Example 14 on page 15 of the specification only shows that the instant hydroquinone substituted polyunsaturated fatty acids inhibit protein kinase C activity. This example does not illustrate anti-cell proliferation activity of these compounds. These compounds may be able to claim cell proliferation mediated by protein kinase C activity but not all cell proliferation broadly.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1, 3-6 & 21, 23-24 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 4-8 of U.S. Patent No. 6,713,512. Although the conflicting claims are not identical, they are not patentably distinct from each other because inclusion of the chemical formula of the hydroquinone

polyunsaturated fatty acid into the instant claims does not negate the fact that it is a positional isomer of kombic acid.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
